Ann Arbor, MI 48109   lxieyang@umich.edu

Education

09/2015 – 04/2017 *Ann Arbor, MI*	**University of Michigan** B.S. in Computer Science Engineering Advisor: Dr. Walter Lasecki GPA: 3.92
09/2013 – 08/2017 *Shanghai, China*	**University of Michigan – Shanghai Jiao Tong University Joint Institute** B.S.E. in Electrical and Computer Engineering Advisor: Dr. Jing Liu GPA: 3.79

Projects

07/2016 – present
Undergraduate
Researcher

Learning to Boosting Machine Learning Classifier Performances Using Sub-class information
- Advised by Dr. Walter Lasecki.
- Investigate the impact of added subclass information on the performances of traditional machine learning classifiers.
- Iteratively build an efficient web-based image labeling tool to gather superclass and subclass information from the crowd.
- Develop an automated system for labeling result visualization and analysis.

05/2016 – present
Undergraduate
Researcher

Computer Vision and Crowdsourcing for Vehicle Crash Analysis
- Advised by Dr. Walter Lasecki & Dr. Jason Corso.
- Created a reconfigurable, web-based vehicle crash scene annotation UI that enables crowd workers to efficiently and effectively provide information about a visual scene, such as object labels and measurements.
- Constructed a reusable annotation server backend that recruits crowd workers for real-time tasks, collects responses, and visualizes the collected data.
- Iteratively designed ways to boost worker performance and improve system reliability on Amazon MTurk.

10/2015 – 11/2016 *Research Assistant*	**Learning to Detect Human-Object Interactions** ● Advised by Dr. Jia Deng. ● Developed an Amazon MTurk-based image annotation toolkit as well as its corresponding automated evaluation systems that boost worker-end annotating efficiency and facilitate large-scale image data extractions. ● Implemented and revised a Python-based back-end interface using Amazon provided APIs that supports instant data collection and progress check. ● Contributed to the development of a novel DNN-based framework for HOI detection called Human-Object Region- based Convolutional Neural Networks (HO-RCNN) that significantly improves the performance of HOI detection by exploiting human-object spatial relations, and achieves state of the art performance. ● Submitted work to CVPR 2017
08/2016 – present *Software Engineer*	**Project EasyDraw: An Addition to Assisitive Technology** ● Advised by Dr. David Chesney. ● Lead the development of an iPad-based specialized figure and diagram editting application that enables people with physical disabilities to draw professional free-body diagrams.

Publications

Yu-Wei Chao, Yunfan Liu, **Xieyang Liu**, Jia Deng. Learning to Detect Human-Object Interactions. (submitted to CVPR 2017)

Professional Experience

04/2016 – present *Ann Arbor, MI*	**Crowds and Machines Lab, University of Michigan** Undergraduate Researcher (Advisor: Dr. Walter Lasecki) Worked on crowd-powered interdisciplinary projects that address novel and promising research questions.
Apr/2016 – present *Ann Arbor, MI*	**Center for Ergonomics, University of Michigan** Research Assistant (Advisor: Prof. Charles Woolley) Worked with a software engineering team to develop and maintain the commercially available 3D Static Strength Prediction Program (3D SSPP).
10/2015 – 04/2016 *Ann Arbor, MI*	**Vision and Learning Lab, University of Michigan** Research Assistant (Advisor: Dr. Jia Deng) Worked on a CV-based toolkit that boosts performance on HOI detection by exploiting human-object spatial relations.

Teaching

09/2016 – present *Umich*	**Instructional Aide – EECS484 Database Management Systems** Prepare and lead weekly discussion sessions and office hours that facilitate students' learning process. Develop teaching materials and course projects. Grade assignments and exams.

05/2015 – 08/2015 *SJTU*	**Teaching Assistant – Vv255 Multivariate Calculus** Developed discussion slides and in-class exercises, led weekly discussion sessions, held office hours, graded.

Honors and Awards

07/2015, 07/2016	**UM-SJTU Joint Institute** Tang-Junyuan Fellowship (Top 2)
12/2015, 04/2016	**University of Michigan** Dean's List
08/2015	**Center for Learning and Teaching, UM-SJTU Joint Institute** Basic Teaching Assistant Certificate
12/2013, 08/2014, *12/2014, 08/2015*	**UM-SJTU Joint Institute** Dean's List
06/2015	**Shanghai Jiao Tong University** Fellowship for Outstanding Academic Performance
04/2015	**COMAP Mathematical Contest in Modeling** Meritorious Winner (Acceptance: 9%)

Skills

Languages & Libraries
C/C++, Python, JavaScript, CSS, HTML5, Swift 3.0, Java, SQL, jQuery, Bootstrap

Software & Platforms
MATLAB, Git, Visual Studio, Amazon Mechanical Turk, LaTeX, Photoshop, MongoDB

Tests

TOEFL *(Internet-based Test)*	**Total: 116 / 120** **Reading: 30 / 30, Listening: 29 / 30, Speaking: 28 / 30, Writing: 29 / 30**
GRE	**Verbal: 157 / 170, Quantitative: 170 / 170, Analytical Writing: 4.0 / 60.**
